

The O'Brien Institute for Public Health &
the Department of Community Health Sciences present:

The Economics of Health Inequality in the English NHS

Speaker: Miqdad Asaria

Friday, November 2, 2018 - 12:00 to 12:50 p.m.
Clara Christie, Health Sciences Centre, 3330 Hospital Dr NW

This presentation will provide an overview of health inequalities in the English NHS, describing how they have responded to some of the most ambitious health inequality reduction policies in recent times across different stages of the patient pathway. It will then go on to describe new methods to enable future policy to better target inequality reduction going forward.

Miqdad Asaria is an Assistant Professorial Research Fellow based at the LSE where he is currently pursuing a fellowship with the Health Foundation on hospital management in the NHS. Prior to this Miqdad has worked with the Ministry of Health and Family Welfare in India, the Centre for Health Economics at the University of York and the UK Department of Health.

Objectives:

1. Understand the cost implications of health inequalities on the health care system
2. Understand how to measure and monitor inequalities over time to enable policy evaluation
3. Understand how to model trade-offs between aggregate health and health inequality

This event is a self-approved group learning activity (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada. This seminar is also available via an online

AdobeConnect session: To attend the seminar from another location via your computer, click on this link:
